**DEVILBISS**  
THE RIGHT WAY TO FINISH

## Devilbiss Desiccant Air Drying System

- Removes dirt, oil, water and water vapor from compressed air
- Prolongs tool life by protecting tool from contaminants
- Promotes a better quality finish by containing particles

**Desiccant Bead Refill - \$147.90**

**Desiccant Air Drying System - \$1255.25**

**DEVILBISS**  
THE RIGHT WAY TO FINISH

## Devilbiss Whirlwind Filter

- High solvent resistance prevents premature wear
- High flow design decreases chance of pressure drop through filter
- Reduces paint defects caused by dirty air

**\$17.99 ea**

**andreae**  
FILTERS

## Andrea Accordion Booth Filters

- Designed to hold more paint particles while letting more air through
- Static pressure increases slowly with the accumulation of overspray resulting in more air flow
- V shaped front wall prevents overspray bounce back

**3' x 30' - \$101.31**

### Paint Pockets

- Unique design holds up to 5 times more overspray than other filters
- Easy to change, user friendly polyester filter
- Long Lasting Filter, cutting down disposal and filter costs

**20" x 20" - \$186.54/ box of 30**

**20" x 25" - \$232.27/ box of 30**

### 6500 Series 3M Respirator

- 3M cool flow valve for easier breathing
- Adjustable head harness design
- Optimum fit and comfort with three-way adjustable head cradle

**Respirator - \$31.45**

**Cartridge Refill - \$18.65**

### Columbia Tech Tip # 101

- Have you ever felt roughness on a piece of furniture from overspray or dry spray when using varnish or nitrocellulose top coat? A brown paper bag can actually remove the overspray. After allowing adequate drying time, use small pieces of the bag and thoroughly rub the entire piece. This will remove the roughness and also provide a smooth, oil-rubbed feel.

Prices subject to change without notice. Prices do not include applicable taxes.
