- ❖ Easy to use, only 3 parts
- ❖ Measurements on cup for ease of mixing
- ❖ Low center of gravity design for better control and less fatigue

.6L Size only. On sale for ~~\$175~~ \$140/ box of 60

Columbia Tech Tip # 105

Today's finishes are extremely complex chemical formulations. Some may require the addition of solvents to form the proper spraying viscosity. Others may simply require the addition of a second component at a prescribed ratio to obtain sprayable consistency. Make sure you are familiar with the specific finish material data sheets for the product being used. Do not mix materials from different manufacturers. Read and follow the directions carefully to achieve a first class finish.

Prices subject to change without notice. Prices do not include applicable taxes.
