60" x 300' Roll ~ \$350 Sale - \$310

### Columbia Tech Tip # 111

The simplest and most effective way of keeping dust out of your paint booth is to always keep the doors closed. When you bring in the piece to be sprayed, make sure the booth is on to help get rid of any potential contaminants. Other tips include: properly prepping the object to be sprayed before entering the spray booth, sealing off any ceiling frames, fire sprinkler openings, compressed air pipe openings and always wear a lint free coverall.

Prices subject to change without notice. Prices do not include applicable taxes.
