### 3M Cubitron II Abrasives

**3M**

**CUBITRON II**

These discs have a specially developed ceramic alumina abrasive that cuts more quickly and lasts significantly longer than typical abrasives. The pyramid-shaped grains fracture as they wear, forming sharp points that effectively slice through material, producing an even surface finish and promoting longer disc life.

#### Available in:

**6" – 80, 120, 150, 180,  
220, 320 and 400 grit**

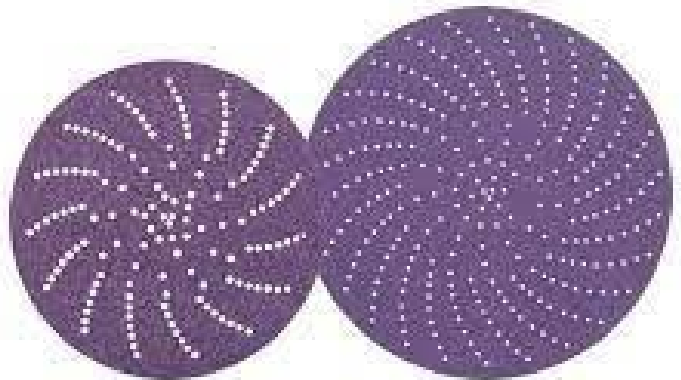

**\$96 / Box of 50**

## Industrial Supplies

### Food Safe and Butcher Block

- Safe to use to maintain and preserve wood food preparation surfaces including: cutting boards, butcher blocks, counter tops and utensils
- John Boos recommends oiling cutting boards or butcher blocks every 3-4 weeks to prevent wood from drying, splitting or cracking
- Simple to use: spread evenly over desired surface, wait five minutes, then wipe off excess

\$13.50 / Bottle

EZ-DO Non-Toxic Polyurethane Gel is a wipe on product which seals and protects wood surfaces in just one easy step. EZ-DO is recommended for refinishing and sealing cutting boards, blocks, wood counter tops and household eating utensils. It can also be used regularly on surfaces that have been previously finished with oil to maintain them in top condition.

\$34.44 / 1 Pint

### Bondo and Repair

Remove last minute minor imperfections from surface with the quick-fix formula of USC Pronto Kombi Spot Putty. This single component, super smooth putty works great on minor scratches, surface flaws and little pinholes. It is a ready to use formula and shows exceptional adhesion to existing finishes and primers. This high solid formula offers good fill with exceptional sanding ability and reduced shrinkage.

\$16.78 / Tube

A paste putty that levels like a pourable putty. Cures quickly to a sandable state which makes it the ideal product for quick spot filling. Stain resistant for use under basecoat/clearcoat repairs. May be applied to body filler and two-part primers.

\$63.55 / 591 ML

\$106.39 / 1.89 L
